SimLabDisplay

DENTAL SIMULATION LAB MANAGEMENT

Every station. Every student. Every faculty. One live board.

Faculty see who's where, who needs help and what's signed off, live. Students see what to do next on their phone.

Start the lab in one tap

One tap assigns the whole class. Mark a student done and the next one rotates in.

Easily recognize students that need help

Clear organization of students who need feedback on their assignments.

Concrete data on every student and faculty

A digital record of every sign-off, help request and photo attempt, and the faculty member behind each one.

A digital snapshot of progress

Catch struggling students early, with a photo of every prep and faculty notes on the work.

Request a live demo.
